

The new board dressed for work

VikingGenetics' and FABA's boards had their first common meeting in Copenhagen on May 12. During the board meeting, the boards elected a common interim board responsible for preparing the new merger so that as much as possible is ready for January 1, 2010.

Lars-Inge Gunnarsson was elected president of the interim board and Jan Duchwaider and Kari Tahvanainen were elected vice-presidents.

The interim board will now dress for work and start building up the new Nordic Viking-Genetics.
